All the mohair and angora in our yarns is from goats and rabbit raised here at Avillion Farm. Our wool comes mostly from our own Shetland and Jacob sheep, except for some Cormo (from Virginia) or domestic Merion from Virginia (for blending with angora). All dyeing is done here at Avillion Farm in our own dye shed. Yarns are available in our etsy shop. For local customers, direct pickup at the farm is available by appointment with payment in cash, check or via Paypal.
